AMAZING BOOSTER FOR STAGE

PRODUCT: FIRE MACHINE

MODEL: H-E02

USER MANUAL

VERSION 2.0

DISCLAIMER

WARNING Read this manual carefully before installing and/or using this product. Failure to read the manual and to follow the printed instructions may lead to personal injury and/or damage to the product.

FORWARD

Congratulations! Thanks for purchase from us.

This manual contains all information required for the intended use of the equipment. Deviation from the described intended use can result in a hazardous situation and/or property damage.

This manual includes notes and warnings on safe operation of the equipment.

LIABILITY

Accepts no liability for claims from third parties arising from unauthorised use, use other than that stated in this manual, and use other than in accordance with the General Conditions registered at the Chamber of Commerce.

Refer further to the General Conditions. These are available on request, free of charge.

Although considerable care has been taken to ensure a correct and suitably comprehensive description of all relevant components, the manual may nonetheless contain errors and inaccuracies.

Should you detect any errors or inaccuracies in the manual, we would be grateful if you would inform us. This helps us to further improve our documentation.

2. TECHNICAL DATA

Product	Product Name	Dual Way Flame Machine
	Product Type	Flame
Machine Dimensions	Length (mm/in)	225/8.86
	Width (mm/in)	225/8.86
	Height (mm/in)	330/13
Net Weight	Empty Weight (kg/lb)	6/13.23
Environment	Minimum Temperature (°C/°F)	-10/14
	Maximum Temperature (°C/°F)	70/158
	Humidity (Relative)	20% to 90% (non condensing)
Electrical	Voltage Input (Vac)	AC 110-220V
	Voltage Frequency	60-50 Hz
	DMX Channel	2
	Power Consumption (Vac)	120W
Spray Height	Maximum Height (m/ft)	4/13
Usage	Consumable (s)	Flame Liquid & Starting Liquid

INPUT & OUTPUT

The input liquid you can choose CAR STARTING LIQUID. The output maximum height depends on the type of input liquid pressure. The output has a maximum distance of 4m.

NOTICE: Wind and other weather circumstances will influence the output distance. The given values are estimated values

1 SAFETY!

The Dual Way Flame is designed and constructed so that it can be used in a safe manner. Specifically, this refers to the usage, situations, and prescriptions for the device as described in this documentation. It is the responsibility of all persons authorized to use the Dual Way Flame to read and follow the instructions in this manual.

The Dual Way Flame should be located and used in an environment that preferably:

- Has a fairly constant temperature between 0 and 30°C.

- Has a relative humidity not exceeding a maximum of 75%.

- Is reasonably free of dust, corrosive gases, and high concentrations of organic vapors.

- Does not contain any source of vibrations in the environment.
